

# Rock of ages [Gm]

Copyright

**Gm**                    **C**                    **Bb A**    **G**  
ROCK of ages, cleft for me,  
**Gm**                    **Bb**                    **C**  
Let me hide myself in thee;  
**Gm**                    **C**                    **Bb A**    **G**  
Let the water and the blood,  
**Gm**                    **Bb**                    **C**  
From your wounded side which flowed,  
**Gm**                    **C**                    **Bb A**    **G**  
Be of sin the double cure,  
**Gm**                    **Bb**                    **C**  
Save from wrath and make me pure.

**Gm**                    **C**                    **Bb A**    **G**  
Should my tears for ever flow,  
**Gm**                    **Bb**                    **C**  
Should my zeal no faintness know.  
**Gm**                    **C**                    **Bb A**    **G**  
These for sin could not atone;  
**Gm**                    **Bb**                    **C**  
You must save and thou alone:  
**Eb**                    **Bb**                    **F**  
In my hand no price I bring,  
**Eb**                    **Bb**                    **F**  
Simply to your cross I cling.

While I draw this fleeting breath,  
When my eyes shall close in death,  
When I rise to worlds unknown,  
And behold you on your throne,

**Eb**                    **Bb**                    **F**  
Rock of ages, cleft for me,  
**Eb**                    **Bb**                    **F**  
Let me hide myself in thee.  
**Eb**                    **Bb**                    **F**  
Let the water and the blood,  
**Eb**                    **Bb**                    **F**  
Save me, save me, make me yours.

**Eb**                    **Bb**                    **F**  
In my hand no price I bring,  
**Eb**                    **Bb**                    **F**  
Simply to thy cross I cling.
